

A B S T R A C T

A METHOD AND A DEVICE FOR CUTTING OUT PAINTING MASKS

5 The present invention provides a method of making a
painting mask (13, 45 to 47, 301) for masking a portion
of a vehicle, the method being characterized by the
following steps: a) presenting a sheet material (6) over
a sheet material support (2, 3, 202, 210); b) holding the
10 sheet material in contact with a face (19, 26) of the
sheet material support; c) cutting a mask out in the
sheet material held in contact with the sheet material
support by using a cutter tool (7, 8) that is moved
relative to the support and/or the material; and d)
15 separating the mask from the sheet material and/or the
support.
